Fruits of tenants' labours

A GARDEN has been given a makeover thanks to a green-fingered Cardiff community.

More than 50 tenants, staff, volunteers, contractors and members of the local community dug deep to help at the Taff Housing Association's annual Community Allotment Action Day.

The Community Allotment Group was set up in 2010 at Leckwith Allotment to give them the chance to grow fruit and vegetables, improve their gardening skills as well as their confidence.

"Everyone involved had a great day helping out in various activities - transforming community plots with new plants, flowers and seeds, installing solar lights, planting up raised beds, shovelling manure, concreting the water pipe, painting and sprucing up the site ready for the spring/summer growing period," said Clare Parry, community investment officer at Taff Housing Association.

"It was a hive of activity throughout the day. Thank you to everyone that helped."
